

Plan your Layout to suit user / users

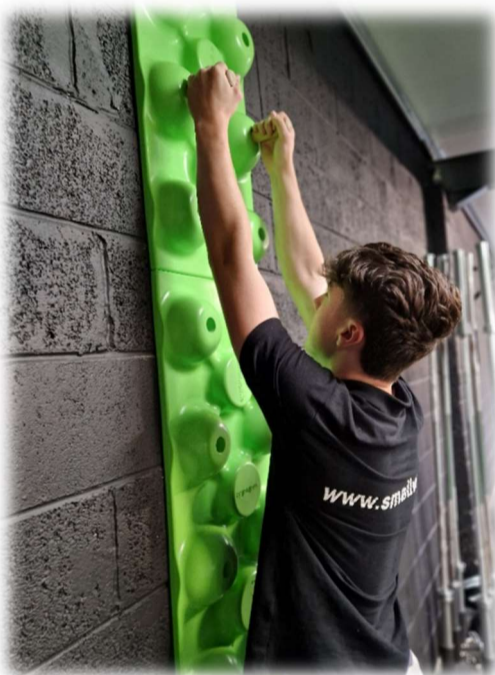

Use minimum 6 fixing points

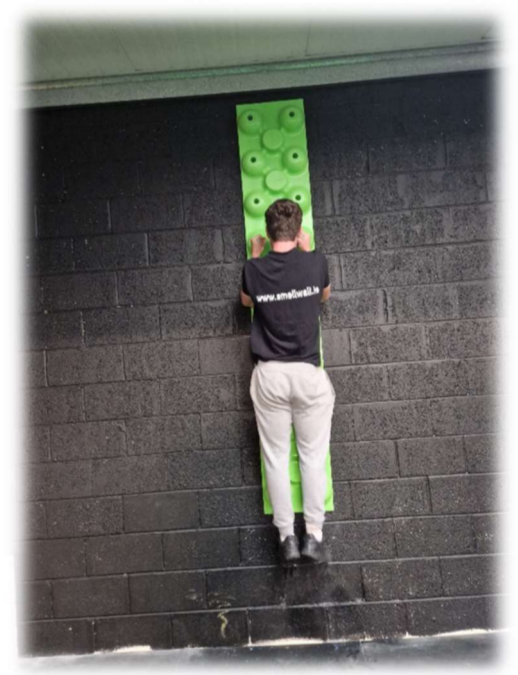

Use Appropriate Tools and safe work practice

Check that all boards are properly secured

- Use professional trade persons only
- Use appropriate fixings for concrete or timber walls
- Always use 6-10 fixing points available
- Align all boards in both vertical and horizontal directions
- Use appropriate tools to install
- Check that all boards are secured properly when done and when in use
- Always use safety matting

Warning

Climbing indoors and outdoors is an inherently risky sport. The activity of climbing can lead to personal injury. Artificial holds can spin, and on rare occasions break. Individual climbers and organizations have the sole responsibility for learning and using proper climbing technique and safety practices. The purchasers and users of all our products accept full and complete responsibility for any and all damages or injury which may result from the use and/or misuse of any product purchased from SmallWall School Products.
